

Group: LEEFO

Date: 2021-10-18

Chair and secretary: Everyone participated in leading and documenting this meeting.

Participants: Linus Lundgren, Emelie Edberg, Eugene Dvoryankov, Felix Edholm, Omar Sulaiman

## #1 Objectives

Decide on last work to do before submission at the end of the week.

## #2 Reports from previous meeting

**Eugene:**

- show (filter) button
- Added JavaDoc headers for fragment classes
- UML diagram for the newest model package.
- Junit tests for search function

**Emelie:** Made new model class for search, sort and filter combinations.

**Omar:** Finished budget goal user story. Did also make some sort methods in categoryModel and did some tests for them. Made a splash screen which shows in the time the app is trying to start so instead of seeing a black screen, the splash screen shows for some time.

**Linus:** Finished streak functionality.

**Felix:** Fixed testing issue with fake IDatabase and split test classes to represent new structure. Created view for the budget grading functionality. All tests for user story pass. Feature should work as intended. Possibly some cosmetic improvements to still be done.

## #3 Discussion items

What is left to do?

## #4 Outcomes and assignments

We need to update the UML diagrams for the last iteration of the program.

We need to update the documents to represent the final version of the program.

**Eugene:** Update all UML. Edit Controller package and View Package in SDD.

**Emelie:** Make streak tab in bottom nav bar. Update user stories in RAD. GUI pictures in RAD. JavaDoc Enum.

**Omar:** SDD, RAD and maybe some more animation in splash screen. Move overview of MVC to system architecture from system design. Write about our thoughts on MVC in an android context. This should be under System Architecture. Fix readME.

**Linus:** Add some more information to streak user interface. Divide Model package section in SDD into several subsections, and write about streak functionality. Fix rounding of floats.

**Felix:** Check for small cosmetic issues in graded budget tab. Add clarificating text as well. Update quality chapter SDD. Write in budget grader subchapter of Model Package.

## #5 Wrap up

Next meeting 2020-20-10 10:00
